Abstract

As a part of our PS module, we were able to take part in the Food Festival which is organized by 2-year 2 semester students. In our food festival, our stall called ChakaBlast held a few fun games. We hope that we were able to add extra variety to our successful food festival. All the team members and the batch mates' team effort played a vital role in to success of this Food Festival. There were a lot of participants and visitors to our Food Festival. They also gave us positive and supportive comments about our games and the food festival. We were able to earn a considerable amount of money at the end of the food festival. All the batchmates and the organizing committee worked hard for this food festival to be held successfully. Finally, because of all the members' hard work, we collected a lot of fun and valuable memories for our lives and experiences.

Group Project

We were the only group to organize games for the food festival. For that wonderful food festival, we planned Four games, they were

- Dart Game
- Shoot The District
- 1 bounce Ball
- Try me Win me,

and winners to given attractive prizes.

First, we estimated our budget and we planned to buy goods under the estimated budget limit. So, we went shopping around Colombo to buy goods and after much effort, we succeeded.

On the festival day, we decorate our stall and open it for the crowd. Little by little crowd kept coming to our stall and started playing. We introduced our creative and new games for them and most of them were curious and supportive.

End of the event we were able to collect a considerable amount of money as our income. We also sold our remaining extra gifts and prizes and earned some extra money from them.

As a team, we worked hard and had a lot of fun experiences during this event.

Conclusion

As a group, we are glad to be a part of that wonderful food festival. We were the only group to conduct games, so we were able to get that opportunity and successfully organize and deliver it. Most of the players and visitors who came to our stall gave us their feedback on our stall which was very good and supportive. So, although we could not make many profits, we had lot of fun and gathered lot of experience to our life. So, we are glad to have a subject like PS to organize a wonderful event. Finally, all because of team effort we were able to do our best to make a successful Food Festival.
